OUTS TO HITS		1-7							

SPECIAL RATINGS

Some Ballparks configurations require an additional rating for HR to FB in specific Modification Areas.

When a HR to FB Rating has a number next to it in Brackets, that number applies to the Shaded in area of that specific Modification Area. So, when a Home Run Roll is directed toward Right Center Field, the FB to HR Number is 7, not 3. This demonstrates "Triples Alley" in AT&T Park.
